

## ELEVATOR AT EDMONTON WILL AID WESTERN ROUTE

Tests for Foundation of 2,500,000 Bushel Elevator at Northern Alberta Terminal Are Being Made and Elevator Will Be Ready for 1924 Crop.

Winnipeg, November 15.—A government terminal elevator, with 2,500,000 bushel capacity, is to be erected at Edmonton, Alberta, in time for handling the 1924 crop of the western provinces, it was announced here by Hon. Charles Stewart, Minister of the Interior, on his return from Alberta. The new elevator will serve the needs of the Canadian National Railways, and will also provide cleaning facilities, without which grain from Northern Alberta cannot be satisfactorily shipped via Vancouver for ocean carriage to the west coast.

A site has been selected, tests for the foundations are being made, and contracts for the excavation of the elevator have been let. It was announced before the first of the year, and the construction is to be finished before the 1924 crop is ready for moving. The cost of the elevator will be between \$1,000,000 and \$1,250,000.

With the development of the wheat movement via the Pacific route, the need of an interior elevator at Edmonton has become vital, as the cleaning facilities are necessary in order that farmers in the Edmonton district may be able to ship their grain via Vancouver. Additional elevators are also being provided at Vancouver for the handling of grain at that port, and next year, it is expected, the amount of grain shipped via the Pacific route will show a tremendous increase over the amount handled this fall.

Except for the additional facilities planned at Vancouver, this will be the only elevator construction undertaken by the government in the west during the next year.

## EXAMINER'S REVIEW OF PROVINCIAL MARKETS

Calgary, November 15.

Cattle.—Best—Calgary steers have not been just as high for the tops this week, choice heavy and light steers, \$4 to \$4.40; good, \$3.50 to \$4; medium, \$3 to \$3.50; choice heifers will make \$3.50; good, \$2.75 to \$3.15; choice cows, \$2.75 to \$3.25; medium, \$2.50 to \$2.75; medium, \$2 to \$2.50; common, \$1.50 to \$2; canners, \$1 to \$1.50. Choice bulls will make \$2; most of the good ones, \$1.65; common around \$1.25. Calves, choice yearling, \$3.50 to \$4; common down to \$2. Choice stockers, \$2 to \$2.50; stockers, \$2.50 to \$3.25; stock heifers, \$2 to \$2.50; stock cows, \$1.50 to \$2.50.

Beef.—The few good cattle that were in at Edmonton brought steady prices. Choice heavy steers, \$4 to \$4.50; choice light, \$4 to \$4.25; good, \$3.50 to \$4; medium, \$3 to \$3.50; choice heifers up to \$3.50; good, \$2.75 to \$3.25; choice cows up to \$3; good, \$2.25 to \$2.75; medium, \$2 to \$2.50; common, \$1.50 to \$2; canners down to \$1. Calves unchanged with choice vealers up to \$5; common calves, \$2 to \$3. Bulls unchanged with tops at \$2; common down to \$1. Stockers, \$2 to \$2.50; stockers, \$2.50 to \$3.25; stock heifers, \$2 to \$2.50; stock cows, \$1.25 to \$1.75.

Market still very unsatisfactory and dealers say sales are hard to place even at present values.

Not enough farms moving to test out the market; quotations which are nominal are unchanged.

Edmonton hogs broke this week at \$10.00, next year, it is expected, the amount of grain shipped via the Pacific route will show a tremendous increase over the amount handled this fall.

Except for the additional facilities planned at Vancouver, this will be the only elevator construction undertaken by the government in the west during the next year.

yearlings up to \$9.50 and fat ewes \$5 to \$7.50.

Grain.—Market prices have been holding remarkably steady all fall and bearish news does not appear to have caused any but breaks in the far.

With the first weather the threshing has been going on quite steadily, and there are some of the largest threshing districts which are getting well cleaned up.

Butter.—Butterfat—Cheese.—Unchanged and market looking firmer; prints and cartons, No. 1, 35c to 40c; No. 2, 35c to 36c; car lots, 35c to 36c; cheese, 35c to 36c; shipmen, 35c. Dairy.—Movement light, dealers quote straight prices, 25c; markets up to 25c; fancy table grade, Butterfat—Unchanged. Cheese—Unchanged, looks weak.

Eggs.—Poultry.—Live prices lower next week; chickens, 12c; cow, 5 lbs. and up, 11c; 4 lbs. and under, 7c to 9c; turkeys, 15c to 16c; geese, 11c. Dressed shipments, turkey, 10c; chicken, 11c to 12c, quoted by dealers; at market stalls prices slightly over these for No. 1, delivered. Eggs—Local, unchanged; B. C. pullet eggs now being offered.

Business still light and prices unchanged, buying prices country points, (monthly, \$10 to \$15; upland and alfalfa, \$10 to \$11).

Potatoes—Dealers offered cars at the same points at \$12 to \$15, on graded lots, unchanged; B. C. pullet eggs now being offered.

Many of the late Alberta hogs, Sheffield steel manufacturer, Sheffield Tricentury will receive approximately \$200,000.

Three handbills held up two clerks of the Consolidated Coal company in Collinsville, Ill., and escaped with \$14,000 of payroll money.

Two masked handbills held up two messengers of the Argentine State Bank at Argentine yesterday and escaped with \$20,000 in cash.

Opinion in Washington is that the coming presidential campaign will be waged between President Coolidge, heading the Republican ticket, and Wm. G. McAdoo, former secretary of the treasury, heading the Democratic ticket.

The proposed tax on betting, which many advocates hoped would be introduced for revenue purposes, is dead for the time being.

Seven buildings were destroyed when fire broke out in Orange hall, Germantown, N.Y., Wednesday.

The preparation of a message of recommendations covering revision in church discipline, laws and policy was undertaken yesterday by the board of bishops of the Methodist Episcopal church, to be submitted to the general quadrennial conference of pastors and laymen at Springfield, Mass., next May.

M. de Lasteyrie, French finance minister, says the balance of the budget for 1923 is assured.

The centers of the organized rebellion in Germany now are among the students, of whom there are 80,000 in Bavaria's technical and high schools and the university.

Lord Cere, the British ambassador to Paris, received instructions from London yesterday morning defining the attitude of the government on the subject of the return of the German crown prince.

A court at Eleusis has sentenced to death General Leonarodopolus and

king them of \$43,007 which they carried.

Roy Beauregard has been released from Stillwater after serving a sentence for forgery.

A decision of the United States circuit court of appeals Tuesday declared void a California law forbidding employers to exact pledges from employees not to join labor unions.

A reaffirmation of faith in the "virgin birth of Christ and the Apostles' Creed" has been made by the house of bishops of the Protestant Episcopal church in the United States.

By the will of the late Alberta hogs, Sheffield steel manufacturer, Sheffield Tricentury will receive approximately \$200,000.

## FARMERS' BUYING POWER GREATER FOR THIS YEAR

Increase of \$63,000,000 in Valuation of Wheat Crop Estimated

If millions of dollars only are required to bring new prosperity to Alberta, then the goal has been reached. All one has to do is to scan the valuation of bumper crops this year, increased dairy products, the rise in poultry marketing and heavy sales of livestock to be convinced that it is a new era of progress for Alberta farmers.

One is inclined to wonder how the producers will be able to spend their money after realizing what vast sums will be put into circulation during the coming months. It appears to be a safe guess that savings deposits for this province, or at least the central and northern sections, will be increased materially as a result of this record year.

**Amazing Crop Yields**  
New business and hopes of it means good times for Alberta. The farmers' purchasing power is greatly enhanced by the 1923 crop and the reflection of this condition should be felt in both town and country. It ensures bigger and better business and a rich feeling of optimism in this province.

Take the amazing crops for instance, which are the talk of the continent. This year's wheat yield has a total valuation of some \$113,411,000, if valued as of No. 2 Northern grade at 88 cents a bushel, whereas last

year the figures were \$50,297,868. There is a big acreage of oats this year and a conservative estimate places the valuation at \$23,500,000, as compared with \$16,620,287 in 1922. It is the same with barley, which was valued at \$2,594,845 in 1922 as against \$3,620,775 this year.

**Increased Valuation**  
Increased valuation is also shown in connection with the rye crop which is worth possibly \$3,000,000 or considerably more than in 1922, when the estimated figures were \$2,811,050. Flax was valued at \$14,014 last year as against \$240,000 this year. All these valuations are from country elevator points.

No matter which way one turns, it is the same story of increased valuation. Of course it is to be remembered that heavy marketing has already taken place so that a fairly good percentage of value of various crops has already been paid out to growers and that money has to a large extent gone into trade channels.

Dairying is on the up swing in Alberta and particularly in the districts north of Red Deer which have a better output of sixty-eight percent of the provincial total.

This year the production will be increased to the extent of from 15 to 20 percent. The creamery butter made this year will have a valuation of possibly \$6,000,000, as compared with \$4,928,000 last year, or an increase of over \$1,000,000.

When it is seen that well over 50 percent of this amount is returned to farmers in the districts tributary to Edmonton, the advantages are all the more apparent. And there are clear indications that from now on the popularity of dairying will increase.

The profits of poultry raising and egg production have appealed to many farmers with the result that

returns from this source will undoubtedly be heavier than heretofore. Over 600,000 pounds of live poultry have been shipped from the province, inclusive of 350,000 pounds from the Edmonton district.

**\$140,000 Poultry Gain**  
The price of live poultry is two cents higher this year than last, so this means that in the Edmonton district alone around \$70,000 more than in 1922 will be paid out to poultry for export shipments. Then it is estimated that some 350,000 pounds of live poultry are required for storage purposes, and last year's shipment, so this means an additional \$70,000 for the pockets of fanciers in this district, or a grand total of \$140,000 of an increase alone.

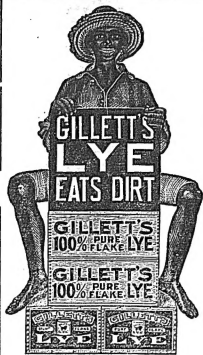

The shipments of eggs have also greatly increased this year. It is estimated that 150 carlots have already been shipped from the province, and as the return is 10 cents per dozen in excess of a year ago, the business is much more profitable. These shipments have resulted in a return of \$450,000 to farmers, or about \$50,000 more than at this time a year ago.

**Decrease in Livestock**  
In the case of some livestock, however, marketing on the Edmonton yards has not been as heavy as a year ago. Up to the end of October there had been 124,219 head of livestock sold on the public yards, while at this time a year ago the total was 150,046. These figures are exclusive of the packing plants, which have direct receipts, as well as purchases on the Edmonton yards.

There have been 47,500 cattle sold on the yards, which have returned possibly \$900,000 to breeders. This total, however, is below that of last year, when sales were unduly heavy owing largely to the serious feed situation. Less calves and sheep have been marketed this year, but there is a marked increase in hogs, the totals being: To October 31, 1922, 47,209; to October 31, 1923, 62,537.

**Hogs Mean Money**  
The big returns from hogs are indicated by the figures for last January alone, when there were 14,530 sold on the yards at a valuation of \$305,750. In January of the previous year the total was \$,980 and valuation \$112,272.

With improved purchasing power, what is the farmer doing about it? It appears from bank reports that some farmers in this district have been breaking even for the past five years. This was largely due to increased dairying, which helped to meet operating expenses. Now with a big crop to realize on, the farmers are at a new position to clear money this year. While they have been depending upon their private reserves, they will now be in a position to make deposits.

So far, however, there has been practically no deposits as only a fair percentage of the crop has been marketed and this money is being used for carrying expenses or to pay off old debts.

At the same time there is no doubt the fact that the farmers' purchasing power is strong and that he will make a new contribution to a lease of prosperity for Alberta in general.

## ALL IS NOT COLD THAT SHIVERS

This is a Very Timely Article, Read and Act On It, and You May Be Preserved from Many Ills.

We have a curious trick of mistaking our enemy (says a writer in "Nash's Magazine," from which we take the following extracts). We are always spanking the wrong boy. Neither evidence nor eloquence can shake our profound conviction that the coughs and colds, bronchitis and pneumonia, which follow in the train of winter, are due solely and exclusively to the cold, and to the wintry blasts and chilly sleets of the season.

Brave the cold by going freely out of doors and facing gladly the brisk, frosty air, and you can defy the pneumonia devil and all his works. Keep

up the fires within and the frosts without won't hurt you. Open your windows and open your mouth, and take in all the good which will come to you. A man's foes are literally they of his household, the crops, of microbes which he has carefully collected and protected under his sheltering roof, and food and fresh air are our best defenses.

Once get clearly in mind that an unventilated, unwarmed room is full of disease-germs as a hen-house is of fleas, and you will begin to appreciate the importance of open windows and frequent excursions into the open air. Indoors would not be so bad if it were not for the bad company that we have to keep there.

**Deceiving Sensations**  
The only solid foundations for our dread of chilly sensations and our fear of catching cold when the shivers run up and down our backs is that many of our fevers and infections, particularly pneumonia, colds, and bronchitis, are ushered in with a feeling of chilliness, which goes on often to actual shivering and shak- ing. But this has nothing whatever to do with the external temperature; indeed, if we slipped a thermometer under the tongue, we should find that our temperature was actually from two to five degrees hotter than normal.

Remember, all is not cold that shivers. This is the only kind of "chill" that ever does serious harm! Chronic exposures to low temperatures, whether from inadequate clothing or badly warmed rooms, may have a directly depressing and deteriorating effect, especially upon young children and upon the old. But, broadly considered, inability to resist cold, a sense of perpetual chilliness, are really symptoms of disease, or of a generally run-down condition.

When you begin to feel shivery

and generally uncomfortable, and shiver run up and down your spine, and you imagine draughts are blowing upon the back of your neck, investigate carefully what rancid piece of meat or decayed vegetable you have eaten at the last meal, or what coughing or spluttering victim of tonsillitis or influenza you have sat next to in the street car, or what germ-infected and microbe-laden atmosphere you have been submerged in, and take the appropriate remedy instead of stirring up the fire, or glaring suspiciously at the edges of the window-frames or the cracks in the door.

**Turn Yourself Out of Doors**  
As an evidence of how little actual connection mere cold or chilly air has with the causation of colds, pneumonia, and bronchitis, it is interesting to remember that our best modern treatment of these diseases is the free and unlimited exposure of the patient to every wind of heaven, out on a porch or rooftop.

And last, but not least, the best way to ventilate your house is to turn yourself out of doors frequently. No system of ventilation that has yet been devised, however ideal and perfect in every respect, has ever been able to make it wholesome for a child to remain indoors for more than a hour at a stretch, or an adult for more than three hours, except when asleep. And it is sincerely to be hoped that no such system will ever be devised.

One other small but quite important aspect of the problem of winter ventilation is what might be termed personal ventilation. That is to say, the ventilation of ourselves, our clothes, our hair, our teeth, and our socks. A very considerable amount of the fouling or contamination of air indoors is caused by the odors and emanations which are given off from the surface of our bodies. In fact,

these, with the disease germs that are sure to be present, are the really serious features of bad air. Much to our surprise, the ordinary, and what we might call legitimate fouling of the air by the ordinary process of breathing, is a comparatively slight factor in the danger.

**Beware of Closed Rooms**

Anyone who is in perfect health, whose clothing is well washed, and whose hair, skin and teeth are in good condition, can probably "consume his own smoke" for a considerable length of time without serious or even appreciable injury. But however harmless it may be for perfectly clean and healthy individuals to breathe and re-breathe their own breath, wherever the "crowd" rises above half a dozen, it is practically certain that an abundance of microbes and disease germs will be present as well as the products of respiration. In other words, a closed room is certain to be an infected room.

Live in the open air as many hours of the day as possible, and you will have solved the problem not only of winter ventilation, but of long life as well. We die not by years, but by infection, and our age is measured not by the seasons which have passed over our heads, but by the "colds" which have passed through them.

## NOTICE

The semi-annual meeting of the Red Deer Curling Club will be held in the city hall on Wednesday next, November 21st, at 8:30 o'clock, to consider forming a Central Alberta Curling Association and any other business that may come before the meeting.

### THE TENT CATERPILLAR

The Tent Caterpillar has done extensive damage in Alberta during the past year. Scientists who have studied them find that they have been very numerous because the parasites that usually keep them down are very few in number, and they estimate that not until 1926 will the parasites again be in control. It is expected that in 1924 great damage will be done, and the trees, especially poplars, will be defoliated in many places.

The eggs of the pest are laid in summer in compact rings around small twigs, each ring containing about 250 eggs. These eggs remain dormant during the winter, and can be easily seen on infested trees as the bark or collar is black. Wherever possible, it will well repay the owner of ornamental trees to look them over now and where they see any of the egg bands break off the twig and burn it.

### IN THE OPEN

Although we do not yet understand how people know what advertising was refused, we do not intend to carry farther the slight argument we have had with the Advocate. Our editorial served its purpose very well, and leaves the way open for what we have in our mind to say.

We have always been strong advocates of the "shop at home" policy, and we have practiced what we preached. We believe that to make the community the best possible in which to live we should all purchase what we need where it will most benefit some other member of this community. And we have always gone so far as to say that if for any reason a person did not wish to do business with us that he should do it with The Advocate, rather than outside Red Deer. We naturally put our own products at times, as far as we can honestly do. That is quite legitimate and is done in every line of business that hopes to succeed. But we have never thought, and we do not now think, that the way to help our business is to belittle, ridicule and preach against our competitors at all times. We think that our attitude has worked to the advantage of both Red Deer papers and printing plants. We also think that our competition has not always been so fair.

### THE LATE G. B. SEXSMITH

It is with regret that we noticed last week the report of the death at his home in Didsbury of G. B. Sexsmith, first mayor of that town and one of the leading men of that community. He had been for twenty-three years intimately connected with that community and had served it in many capacities. He was a lifelong Conservative, a Mason and a member of the Presbyterian church. With the loss of each one of her pioneers of the stamp of the deceased the Province is poorer.

### EDITORIAL NOTES

There is absolutely no doubt in our minds that Dr. Collison is the logical mayor for the next year. He has been Mayor for three terms, during which time he has become acquainted with the problems of the city to a greater extent than any other citizen with the possible exception of Commissioner Stephenson. These problems are still with us, and one of them is coming to a head during 1924. It is asking a lot from Dr. Collison to ask him to sit out another term, but he is a big enough citizen that he will bow to public sentiment in the matter we believe.

The decision of the Amateur Hockey Association to abide by the August residence rule is a wise one. The clubs desiring the November 15th rule were without doubt actuated by the knowledge that it would enable them to play semi-professional players with impunity. And while on the residence rule let us say that the way the Association football finals were run off this past season was a disgrace. It is common knowledge that just before the final game the Calgary Calles "spiked up" with two of the best Hillhurst players.

We cannot be too thankful for the prolonged Indian summer we are having. It is enabling the farmers to get their threshing done. If winter had set in at November 1st or earlier as it commonly does, there would have been untold hardship and loss.

Alberta coal is to be extensively advertised in Ontario. What the object is we do not know, as we have always been educated to believe that there was already a large demand in the east for western coal, but that the excessive freight rates prevented the market from expanding.

All signs point to the most bitter election in years in England, with the likelihood that the government will be badly defeated and that a labor government will come into power. The question of importance is the tariff.

Fire destroys one human life every day, \$6,500 worth of property every hour, 1 dwelling for every twenty minutes, 70 business buildings every week, 30 schools and churches every month, 1 institution for every four days, \$54,590,600 worth of property in 1922. That is equivalent to the interest on \$1,087,360,000. It represents Canada's investment in senseless and unnecessary destruction.

Of the 95,000,000 white people in the United States at present, 45,000,000 are of English descent. The present population of England is about 32,500,000; in other words, there are 12,500,000 more people of English origin in the United States than in England itself.

A total of 996,328 United States motor cars entered Canada in the past 12 months on tourist permits. Most of them were bound for the Province of Quebec.

Great Britain is taxed almost three times as heavily as the United States, according to official figures compiled in London. The latest figures drawn up show that in Britain the taxation is \$72.44 a head; in the United States, \$25.70; in France, \$24.39, and in Italy, \$11.81.

### CONTINUED OIL FLOW PREDICTED

Geologist Says Wainwright Well Will Produce for Many Years

Vancouver, November 16.—A flow of oil which will average 100 barrels a day to begin with and will last for many years, is predicted for the British Petroleum Limited, No. 2 well near Wainwright, by Newton W. Emmons, geologist and petroleum engineer, who has returned from a tour of investigation in the Pelly-Wainwright field on behalf of the company. It is expected the British Petroleum Ltd. will proceed with the development of the strike as soon as necessary preliminaries can be completed. "There is every reason to believe that the well will live for many years," said Mr. Emmons. "Oil is flowing from a 17-foot sand, encountered between 2,018 and 2,025 feet. It has been called the Credille sand. Great credit is due D. O. Credille, the driller, who brought the well in. He drove a rotary drill to the well in three months of single shifts.

"Undoubtedly it is the best well yet brought in, in the highly promising Western Canada field. The Imperial Oil Company's well north of Fort Norman is capable of producing 75 barrels of oil a day and the wells in the Okotoks field are 'freaks' gushing intermittently with an oil that is almost naphtha.

# M.D. OF RAVEN, 342

Meeting of Council of Municipal District of Raven, No. 242, held at office, S.E. 12-37-6-5, October 27th, 1923.

Present, Messrs. Shaw, Taylor, Pollard, Adams, Atkinson and Roper.

Moved by Mr. Pollard, that the minutes of previous meeting as read be approved. Carried.

Moved by Mr. Adams, that the Secretary of Knowledge S.D. No. 2415 be disregarded the letter of the District under date of October 11th, as to the forwarding of taxes collected by him on the N.W. 2-38-4-5, the Secretary-Treasurer of this District take action forthwith. Carried.

Moved by Mr. Atkinson, that Mr. Prid be requested to explain the matter of his road labor being credited to the S.W. 10-38-4-5 on Sheet No. 609. Carried.

Moved by Mr. Roper, that Mr. E. Moriveau, operating a threshing engine through this District, be warned that he must comply with By-law No. 3 as to the protection of any bridge or culvert when crossing same, and that on and after this date any failure on his part, or on the part of anyone so operating an engine in this District, may be dealt with under the law in force. Carried.

Moved by Mr. Taylor, that lands dealt with under the 1923 Tax Recovery Act, and that have not been redeemed, that the time for redemption be extended to December 31st, 1923. Carried.

Moved by Mr. Pollard, that Constable Shantz be advised that Mr. Peck is not an indent within the meaning of the Municipal District Act, therefore bill presented by him, from Dr. Backus, for medical services to Mr. Peck, would not be payable by this District. Carried.

Moved by Mr. Pollard, that Mr. Benton be given credit for the sum of

\$1.00, claimed by him on road labor. Carried.

Moved by Mr. Roper, that as the Council in both the past and present instances has established the policy of allowing ratepayers to work labour on the road only to the amount of their current Municipal Tax, except the case was one of sudden and urgent necessity, that only labour to the amount of their current Municipal Tax be allowed ratepayers on the 1923 Tax sheets, and that foreman's taxes must be deducted from any fees due him, any time due a ratepayer on the 1923 Tax sheets for labour, over and above his 1923 Municipal Tax, be carried forward to 1924, and be credited on the 1924 Municipal Tax. Carried.

Moved by Mr. Adams, that the following my sheets be passed:

718-Div. 6	\$332.90
719-Div. 6	\$209.15
720-Div. 6	\$224.50
721-Div. 6	\$197.05

# WHO IS SHE?

The identity of "The Wonderful Heroine," whose amazing life story appeared in the Family Herald and Weekly Star, is causing widespread speculation. Her remarkable achievements under appalling conditions, handicapped more often than aided by her great beauty, most certainly have justified the claim that she was "One woman in ten million."

It is now announced that a beautiful portrait of "The Wonderful Heroine," reproduced in all the colors of the original masterpiece, will be given free to subscribers of the Family Herald and Weekly Star, Montreal, that is, to those who subscribe in time.

## CAUSE FOR THANKGIVING

Thirty million dollars for wheat. Five million dollars for coarse grains. Fifteen million dollars for livestock, animal products, wool, poultry and dairy products. Ten million dollars for coal. Millions more for the products of the foothills, forests, the manufacture of our mills and other factories. More than sixty-five million dollars in all.

That what Southern Alberta has to be thankful for this Thanksgiving time!

In one of the greatest producing years in the history of Sunny Southern Alberta more than four hundred millions gross wealth has been taken from the soil or other natural resources for every man, woman and child in the territory centering on Lethbridge in a railway and commercial way. Certainly Southern Alberta has much to be thankful for, and every reason, to look with hope to the future. No land which can produce so bountifully of our mills and other factories to live in—Lethbridge Herald.

## A SERVICEABLE MAP

That the total value of the different grains produced in Canada in 1922 was nearly three hundred million dollars greater than ten years previous is graphically shown by a new Elevator Map of the Prairie Provinces, just issued through the Natural Resources Intelligence Service of the Department of the Interior. A diagram showing production per year and value of the various grains for the past fifteen years is one of the features of the new map, which has been prepared chiefly to show the storage capacity of each grain elevator or throughout the three provinces. By figures underneath the name of each city or town with elevator facilities, the capacity has been established as also illustrated through an inset map. Those in a position to use a map to advantage will be provided with a copy, free of charge, upon application.

## NO PERMITS FOR SUNDAY THRESHING

Red Deer, November 14, 1923. Dear Sir:—I understand that there is a report being circulated to the effect that permits to thresh on Sunday are being issued.

This is to say that no one has the power or authority to permit threshing on the Lord's Day Act. The Act expressly provides for the performance on Sunday of works of necessity or mercy, but it is extremely doubtful whether with the splendid conditions prevailing this fall farm operations such as the threshing of grain could be included in this category. This is a question the court should have to decide, and I write this note so that farmers and threshers may be saved the trouble and expense of applying for permits.

Yours faithfully,  
CHAS. H. HUESTIS.  
Sec'y Lord's Day Alliance.

## HOW FARMERS MAKE MONEY

Two farmers met after church and had this conversation:  
"I hear you've sold your pig."  
"Yes, sold him last Saturday."  
"What did you get?"  
"Eight dollars."  
"What did it cost you to raise it?"  
"Paid three dollars for the shoot, and five more for the feed."  
"Didn't make much did you?"  
"No, but I had the company of the pig all summer."—The Informant.

## JUST AS GOOD AS NEW

Mrs. Brindle: Now, Mary, I want you to be careful. This is some very old table linen—been in the family for over two hundred years, and Mary: Ah, sure, ma'am, you needn't worry; I won't tell a soul, and it looks as good as new anyway.

# BENALTO

Mr. C. W. Jenkins has returned from Extra, Iowa, to spend the winter here. In company with P. G. Jenkins and H. Lowe, Scholville, left last Wednesday for their home hunt.

Maggie and Jiggs, represented by Miss Fiksen and D. Nielsen, carried off the box of apples donated by A. Kinnas at the masquerade dance last Friday. The fairy, Miss Lompi, won ladies' first, a pyrex toilet dish, donated by McKenna & McKenna. A cowboy, L. Nielsen, took away the gentleman's first, a knife donated by T. Bardwell. The duck, donated by Mrs. F. Jenkins, was won by Freddie J. McKenna. The next interesting event to look forward to will be the wheat drive on Monday, September 18, at 2 p.m. This is the first game of a series to be played this winter. Prizes will be given to the winners each evening and also a grand prize to the holder of the highest score for the series. Tickets on sale now at only \$1. Don't miss this.

There is a steady stream of grain loads going to the elevators daily. Mr. O. M. Nelson, south of Benalto, is installing an up-to-date watering system to his horses and stables. This will make his beautifully situated home one of the most modern west of Red Deer.

## SYLVAN LAKE

With a light plant installed, the Co-operative store takes on the appearance of a well-stocked store. The ladies put over the chicken supper and concert in great style on Monday. A very fine supper was served, followed by a concert which was enjoyed by all present, with the Rev. G. McKenna as chairman of the choir. The following artists very kindly assisted in the programme: Opening chorus, "O Canada"; pianoforte solo, "Master Hugh McKinnell"; solo, "Nancy Lee"; Mr. S. O. Bryan; solo, "Love's Old Sweet Song"; Mrs. B. C. Leonard; recitation, "Epaminondas and His Auntie"; Miss Lily Cusnead; solo, "Shipmate"; Mr. A. W. Steele; pianoforte solo, Mrs. T. B. Miller; song, "Plough Boy"; Master Sandy McCormick; recitation, "The Good and the Bad"; "Roses"; Messrs. Wilson and Lynnes; pianoforte solo, Miss Ruby McKinnell; solo, Gallagher and Shantz; solo, Mr. P. Duffell. The singing of God Save the King brought to a close a very enjoyable evening, with the church fund enriched to the extent of \$55. The members of the Ladies' Aid take the opportunity to thank all those who so kindly assisted in making it a success.

Mrs. Weissen and Johnson are out west on a moose hunt.

With the Learned Bros., Lester Johnson and Ed. Johnson, the church fund leaving this week, our town will be well represented in the moose country. Mr. Y. Bjergstrom is busy building a new meat market next to the Lakeview Garage, which is now in operation with Mr. Strainer Johnson in charge.

Mr. Dunlop, who has been staying with Mr. J. Fiksen for the past month, leaves for his home in Calgary on Saturday.

Mr. Harvey, of the Imperial Bank, visited with his parents in Edmonton over Thanksgiving.

## McKAIN—WRIGHT

Mr. and Mrs. D. M. Wright and family, and especially the bride, will receive the heartiest of good wishes on the marriage on Wednesday morning of their eldest daughter, Miss Lizzie Wright, to Mr. Raymond L. McKain, of Dickson. The event was a quiet family one, Mr. Brown officiating, and after a nice wedding breakfast, the young people went south to Innisfail and then on to their new home, where Mr. McKain is managing the store at Kewille. Mrs. McKain has been teaching in the district, and friends and acquaintances will wish her and Mr. McKain all happiness in their new life.

## MY TOWN AND I

My town is the place where my home is founded, where my business is located, where my vote is cast, where my children are educated, where my neighbors dwell and where my life is chiefly lived. I have chosen it after due consideration among all the cities of the earth. It is the home spot for me. My town has a right to my civic loyalty. It supports me and I must support it. My town wants my citizenship, not my partisanship; friendliness not selfishness; co-operation, not dissension; sympathy, not criticism; my intelligent interest, not indifference. My town supplies me with law and order, trade, friends, education, means, recreation, and the rights of a free-born citizen. I should believe in my town, work for it, and I will.—Edward J. Carson, in The Canadian.

Now read that over again once more slowly just for luck.

# "WET" MAJORITY STILL CLIMBING

Clause "D" Now Has Lead of 27,408 Over "A" in the Liquor Plebiscite

With returns complete from 14 of the 52 constituencies received from the returning officers and partial returns from the other districts, the majority for Clause "D," government control, over Clause "A," prohibition, in the recent liquor plebiscite, continued to pile up. The latest available figures were:

Clause "D" ..... 80,606  
Clause "A" ..... 53,198  
Net of "D" over "A" ..... 27,408

Complete returns from the 14 constituencies increased the lead of "D" over "A" by more than 2,000 votes, and with more final figures from more than two-thirds of the districts yet to come in, it is estimated that "D" majority will be well over 30,000 when the final figures are issued. According to information received by The Herald from returning officers, the number of men voting in the election was considerably greater than that of women.

## A MIX-UP

The Cowichan Leader in a recent issue gave a true instance of a relationship tangle on Vancouver Island in which the editor asks for assistance in unravelling its intricacies. Here it is:

"My wife, reading in an old country paper of the death of a male relative of mine, we fell to discussing our connection."

"First, his father and my mother's father were first cousins (brother's children)."

"Second, his mother and my father were first cousins (sister's children)."

"Thirdly, my wife's mother's sister married his father's brother."

"Fourthly, my wife and I married."

"Not one of the couples before their marriage were in any way related to each other, either by blood or marriage."

"I am now trying to figure out what relationship I bear to my wife's husband."

## ALL THE SAME TO HIM

A juror was about to be sworn in, when the judge bethought himself to say:

"I trust, sir, that you fully understand the duties and responsibilities of a juror?"

Whereupon the man drew himself up and answered:

"Your honor, I am a plain man and believe in being fair to all. I don't go by what the lawyers say, but I look carefully at the defendant in the dock and I say to myself: That fellow must have done something or he wouldn't be here. So I bring 'em all in guilty."

## Listen!

Have you heard about Peps? Peps is a scientific preparation put up in a handy form, which provides an entirely new and effective treatment for coughs, colds, chest and throat troubles.

Peps contains certain medicinal ingredients, which, when placed upon the tongue, immediately turn into vapor, and are breathed down the air passages to the lungs. On their journey, they soothe the inflamed and irritated membranes of the bronchial tubes, the delicate walls of the air passages, and finally enter and carry relief and healing to the lungs.

In a word, while no liquid or solid can get to the lungs and air passages, these Peps fumes get there direct, and at once commence healing.

## When You Think of Christmas Think of HUMBER'S

The Gift Shop for Gifts That Last

Owing to the fact that our former sale was held during the harvest rush, a great many of our friends and customers were very much disappointed at not being able to take advantage of the low prices. We have therefore decided to extend the opportunity of buying your Christmas Gifts at low prices, and from now until Christmas we are going to place a certain line of goods

### ON SPECIAL SALE

each week. By watching for our weekly announcements you will be able to save a good many dollars on your Christmas gifts this year.

### CUT GLASS AND CHINA

Will be the first special and will be on sale from Wednesday, Nov. 21st to Tuesday, Nov. 27, inclusive. Our entire stock of these two lines will be offered at a discount of

25 per cent. off the Regular Values

Plan your Christmas Gifts now. Buy the Cut Glass and China this week and watch this space for special announcement next week.

## REX THEATRE

TO-NIGHT  
& THURSDAY

ALICE BRADY  
"The Snow Bride"  
12 Paramount Picture

A vivid tale of the snow-swept North. With fate as love's help-mate in a scene that's the thrill of thrill of thrills, the climax of climaxes—in the greatest of snow country pictures.

News Comedy

FRIDAY & SATURDAY

The flaming romance of the young American and Spanish dancer—a saint with painted lips and tapping heels.

Richard Barthelmess  
with  
Miss Dorothy Gish, in  
The Bright  
Shawl

A First National Picture

Comedy  
LARRY SEAMON  
in  
"GOLF"

A bright and breezy comedy

MONDAY  
& TUESDAY

Jackie Coogan  
in and as

"Oliver  
Twist"

The things you've laughed and cried over, unfolded in scene upon scene of the adventures of the workhouse wail. A masterly picture—a triumph replete with the human essence of Dickens wonderful tale.

## TON of Coal FREE

From now until the New Year we're going to give a ton of coal free to the lucky ticket holder every week. This is the plan. With every ton of coal purchased and PAID FOR you get a numbered ticket, and of which we keep the duplicate. Every Monday these numbered tickets will be placed in a box and a responsible citizen will make the draw and the number he draws will be entitled to a ton of Drumheller coal FREE.

Order your coal today. You may get the first ton.
